## For Immediate Release

### **Harbin Clinic Hosts Special Beam Signing Event For Cancer Center**

**ROME, GA., July 23, 2010** – On July 28 and 29, from 8 a.m. – 5 p.m. each day, Harbin Clinic is inviting patients, friends, family and caregivers to be part of the history of the Harbin Clinic Cancer Center by signing a steel beam which will later be placed in the new cancer center for posterity.

The atrium beam for the new Harbin Clinic Cancer Center will be placed in the lobby of the main clinic at 1825 Martha Berry Boulevard in Rome where the public is invited to come by and write their name or the name(s) of friends and family touched by cancer on the atrium beam. This beam will later be sealed in the cancer center.

“We (the doctors and staff of Harbin Clinic) are humbled by the support and confidence in our medical care that has been placed in us, and we pledge our continued commitment to providing this community with world-class medical care,” states Dr. Ken Davis, President and CEO.

We invite the community to come be a part of this historic event as the names of cancer patients, caregivers, friends and families are remembered forever in the Harbin Clinic Cancer Center.

Harbin Clinic is Georgia’s largest physician-owned multi-specialty clinic. With approximately 160 doctors and extenders in 20 locations, Harbin Clinic provides care to thousands of people in North Georgia and parts of Alabama, and Tennessee.
